

IPACK-IMA - Milano - 24 / 28 March 2009

See you at
SMIGROUP's stand!

HALL 2
Stand C63 D66

In occasion of the forthcoming international event of "Ipack-Ima 2009", SMI staff will be at your disposal to provide you with detailed product range information.

SMI will be exhibiting a **LSK 35 T** shrinkwrapper, which achieves an output rate up to 35 packs per minute and it can make packs in film only, cardboard pad + film, cardboard tray, cardboard tray + film. The LSK Series include 6 models equipped with an in-line infeed conveyour and 6 models with a 90° infeed conveyour, depending on the customer's needs.

The **LSK Series** ensures many advantages, such as:

- modular design and reduced size;
- competitive price, despite the high-tech solutions and the use of top-quality components;
- models can be customized, in order to increase their basic functions;
- easy control, through the POSYC control PC, equipped with LCD touch screen and an extremely intuitive man-machine interface.

SMI is a leader among the manufacturers of packaging equipment for food and beverage products and rotary **stretch-blow moulding machines** for PET/PP containers. Over the years, SMI has consolidated its presence in the world with around 4000 secondary packaging machines and 250 rotary stretch-blow moulders.

Looking forward to meeting you at our stand, we thank you in advance for your kind attention and we remain.

Yours faithfully,

Marketing Department
SMI S.p.A.
