

What is the best venue for SMI to present
the new ERGON series of packaging machines? **Brau Beviale**, of course.

In Nuremberg we will present the latest innovation in the **secondary packaging segment** by showcasing **the new LWP 30 ERGON casepacker**. Suitable for output rates up to 30 packs per minute, it stands out in the automatic packers' market for an array of technical features that place it on top of the reference range:

- compact structure and ergonomic design simplify machine operations such as cleaning and maintenance and ensure space saving within the packaging line;
- machine safety doors have a slightly curved design that allows to mount motors on the machine's outer edges, thus enabling easy access for maintenance interventions;
- sliding doors are equipped with a slow-down hydraulic closer, avoiding any sort of hazards when getting closed and preventing any structural damage to the machine;
- the newer secondary packaging machines by SMI are equipped with almost exclusively brush-less motors.

To find out the many benefits of the ERGON series, we invite you to pay a visit to SMI stand by using the **B335808 code** to get a free entrance ticket to Brau Beviale after registering on-line.

REGISTER NOW

Do not hesitate to arrange an appointment with our staff at **Brau Beviale from 8th to 10th November**. We will be glad to inform you about the latest innovations in the packaging sector.

SCHEDULE A MEETING

We look forward to meeting you at **our stand 503-Hall 7A at Brau Beviale!**

Warmest regards.
