

Are you looking for a bottling and packaging line which is:

- flexible, efficient, eco-friendly and competitive?
- easily manageable?
- simple to monitor?
- with machines which communicate and interact with each other?

Discover the Smart Factory created by SMI

Watch the video about the line solution which meets all Industry 4.0 principles and stands out for:

- its use of the latest manufacturing technologies, like the machines from the **ERGON series**, which ensure a flexible, ergonomic and simple manufacturing system and guarantee close interaction between machine and operator (**Smart Factory System**);
- the use of digital control and management systems, which ensure remote control, continuous line monitoring and data collection. This aims at introducing corrective actions, planning maintenance and improving the production cycle;
- the employment of manufacturing solutions, able to ensure more energy savings, higher production efficiency and waste reduction.
